

A Broken Frame "Monument"

When the site was found we laid the foundations down

It didn't take long before they came back tumbling
down

Don't build at night, you need a little light

How else you gonna see what it's gonna be like?

So we picked up our tools and we worked in the
morning light

With the last stone placed wasn't it a wonderful sight?

But it fell back down and scattered all around

Anything passes when you need glasses

My monument

it fell down

Work all of my days for this kind of praise

It fell down.
