Go to sleep my dead end angel  
Say goodnight dear precious one  
For I know you're empty handed  
And all the police carry guns

Whisper to me in the morning  
And I'll kiss your blues away  
For I know your body's aching  
And the lynch mob's on the way

Just to hear your footsteps climbing up the stairs  
Just to live one single day without a single care

Go to sleep my dead end angel  
Say goodnight dear precious one  
For I know you're empty handed  
And all the police carry guns

Just to hear your footsteps climbing up the stairs  
Just to live one single day without a single care

Go to sleep my dead end angel  
Say goodnight dear precious one  
For I know you're empty handed  
And all the police carry guns  
And all the police carry guns
