I can't go to the movies, I ain't got the fare  
I like to make the disco but I haven't got a thing to wear  
I'm gonna get my stereo and call up everyone  
Come on over to my house and let's have some fun

We gonna have a house party...  
We gonna have a house party-y-y  
We gonna have a house party...  
We gonna have a house party-y-y

Bring your own bottle or whatever turns you on  
You can bring your lady or your other number one  
I got all the ladies jammed and a great beat bass to  
dance  
We might disturb the neighbors but I'll take that chance

We gonna have a house party...  
We gonna have a house party-y-y  
We gonna have a house party...  
We gonna have a house party-y-y

Everybody say paaaaarty... (say what/come on) paaarty  
(x4)  
... party... party (x4)  
... party-party... party-party (x4)

It's not the weekend and I can't stay up too late  
I hate to stop the party but I gotta be to work at 8  
All of a sudden the house is full of all these pretty  
chicks  
Maybe I'll get lucky, I'll just call in sick

We gonna have a house party...  
We gonna have a house party-y-y  
We gonna have a house party...  
We gonna have a house party-y-y

Party, party it don't stop  
Party till your body gets hot
