See coming through

'

I hope it will come another '

'

We'll take you out

Hey yo are you the one ?

Are you the one

I took that niggas life

Without using a gun

But 'aint got no style

When I planned my attack I doubt that you're ready

When I planned my attack I doubt that you're ready

I doubt that you're ready

I doubt that you're ready

I doubt that you're ready

When I planned my attack I doubt that you're ready

'

Making a rap play

If was up to me

I was ready yo

But when I drop my shit it's like '

'

Cause I'm about to service

When I planned my attack I doubt that you're ready

I doubt that you're ready

When I planned my attack I doubt that you're ready

I doubt that you're ready

When I planned my attack I doubt that you're ready

I doubt that you're ready

When I planned my attack I doubt that you're ready

I doubt that you're ready
