"Change"

Today seems like yesterday
And yesterday felt like tomorrow
I stare at my reflection in the glass
I wonder where the day's gone

Change, I need a change

I fight the voices in my head
That drag me back to my ugly world
I don't know where they come from
But they're all calling my name

Change, I need a change
Change, I need a change

Everyday of my life is a
Constant struggle
Between that which is right and that
Which is wrong
And I realize that I'm a slave
To temptation

Change, I need a change
