[Kim]

I was down
In your town
Playing blues
Running round
I want, I want, I want
If you could

I want you
In the night
I want you
Lit up bright
I want I want I want
If you could

I want that
In your town
Choose some noise
Playing boys
I want, I want, I want
If you could

I want and I want and I want
Whooo, whooo
And I want and I want and I want and I want and I want
Whooo, whooo
I want and I want and I want and I want
And I want and I want and I waaaant

1, 2, 3, 4
I want I want I want
If you could
