Open hearts, we means, we starts
We entertained, we can't complain
We used less force and spoke in Morse
We sometimes listen after ignore
We have what I would call agreement
Never spoken but often broken
[Possibly we should test our linking?]
[Subject to breakage, leaking nothing?]

Open hearts, we search, we mute
We aren't detained, we can't complain
We used less thoughts, [broke?] no rewards
We said we heard what we heard before
We have what I would call agreement
Something that's whispered, seldom prospered
Possibly we should take this course but
[Subject to breakage, leaking nothing?]
