I won't let you stop tonight  
I won't let you stop tonight  
I won't let you stop tonight

I'm gonna dance tonight  
This ritual between  
Me and you uh  
You scared of wicked night  
Because it's wicked when  
I'm with you  
And boy I'm loving  
It's please  
Babe  
Don't stop (don't stop)  
I want you  
Next to me  
'cause baby  
You rock (you rock)  
'cause I know baby  
That you stand upon it  
So come and get it  
If you want it

I won't let you stop tonight  
I won't let you stop tonight  
I won't let you stop tonight  
Be with me all night long  
We'll be dancing  
'till the brake of dawn  
And our music playing  
On and on  
You can feel it  
All night long  
We'll be dancing  
Till the morning light

We'll be dancing  
Till the morning light  
We'll be dancing  
Till the morning light  
We'll be dancing  
We'll be dancing  
Till the morning light (light light light light light)  
Till the morning light (light light light light light)  
Till the morning light (light light light light light)  
Till the morning light (light light light light light)  
Till the morning light
