1, 2

1, 2 fuck you

Born in a concrete cradle  
Breathing vices and pain  
The booze that make us dry  
The speed that drives us insane

Pain killers I do love them  
Make this paranoia grow  
Life's a mess I don't care  
You got some more? Let's go!

Cause I wanna die high

Marching through self destruction  
We're god forsaken angels  
Is that to much to handle  
I don't believe it at all

Pain killers I do love them  
Make this paranoia grow  
Life's a mess I don't care  
You got some more? Let's go!
