"Do This! Do That!"

Visit "[Do This! Do That!](#)" on MotoLyrics.com

Do this, do that
Get yourself a job
Get yourself a wife, get a life
Don't become a slob
Read this, read that
Educate your brain
Don't need no advice, it's my life
Just turn up the gain

Crank the marshall amp to volume ten
The neighbours coming round screaming again
They say they've had enough
we're running out of luck
I can see a blue light flashing
(I want something more)

I will wreck my life if I want to
You'll never break me down
(I want something more)
Never break me, never gonna break me
It's my life - I'll live it how I like
(Never gonna break me down)

Try this, try that
Always take a chance
Never miss a trick, too slick
In my baggy pants
Get this, get that
Get yourself from debt
Get yourself a suit, makes me puke
Move it up a fret

Crank the marshall amp to volume ten
The neighbours coming round screaming again
They say theyve had enough
we're running out of luck
I can see a blue light flashing
(I want something more)

I will wreck my life if I want to
You'll never break me down

(I want something more)
Never break me, never gonna break me
It's my life
I'll live it how I like
(Never gonna break me down)

Never break me, never gonna break me down X3

Do this, do that
Get yourself a job
Get yourself a wife, get a life
Don't become a slob
Read this, read that
Educate your brain
Don't need no advice, it's my life
Just turn up the gain

Crank the marshall amp to volume ten
The neighbours coming round screaming again
They say theyve had enough
we're running out of luck
I can see a blue light flashing
(I want something more)

I will wreck my life if I want to
You'll never break me down
(I want something more)
Never break me, never gonna break me
It's my life
I'll live it how I like
(Never gonna break me down)
