"Year"

i lost my phone
i forgot the way home
i waited
and i got stupid
i'm fat with the drink
and my mind on the blink
i turn on the same spot
til the page wore through
year on year on year on
year of you

two heads on the block
an umbilicus knot
whatever you do just look busy
his golden locks won't float
and they're going to sink your boat
with the weight of his misery
i turn on the same spot
til the page wore through

dug in dug out
i got a terrible thirst
don't care if you win
just as long as I'm first
