"Perfect"

I think of you,
I'd think it through
But I'd be running in a circle,
Running in a circle.
Know what to do?
No, not a clue
But I've been feeling kinda hopeful
Feeling kind of hopeful.

You are, you're so perfect.

Let's play it right,
Stay up all night without it feeling like the first time, feeling like the first time.
We'll come alive, we'll be just fine 'cause this is feeling like the best time, feeling like the best time.

You are, you're so perfect.

Moving slow, but I'm liking this notion yeah I'm liking this notion now.
Self implode and I'll sink in the ocean, yeah I'll sink in the ocean somehow.

You are, you're so perfect.
