I roll out, roll out, almost on my sold out, sold out
Girl that ass is fat, do you think that could know about
that
Booty, it's that beauty in them jeans
... stand away that ass... make me lean

I... like damn, did you see that, did you see that?
That girl that's something,... stop...
Y'all niggas ain't saying nothing
Mouse pros, no, she walking like she got something to
show
Here's the show, ask the... go
Here we go like damn do you see that, do you see that?
Shake that ass baby, damn do you see that, do you see
that?
Shake that ass mama damn do you see that, do you
see that?
Shake that ass Shawty, damn do you see that, do you
see that?

Bounce... she a killer
... so consider, press the follow button
But shit don't get too close, I swear that ass could
swallow something
... watch a real nigga take that, that's me and I will take
that... don't mistake that
I'm how you spoke about, but my name don't like your
mouth
So take my fucking name out before you'll see what I'm
about
Shawty wide open, I got her... soaking
Freeze, never joking, I'm so outspoken
But still I stay loken
I'm with my team... demolish all these fools...
Niggers better watch your shoulders, so watch your
back fool
Snatch the girl up now she sticking with me like a tattoo
... let me see what we gonn' do...

I... like damn, did you see that, did you see that?
That girl that's something,... stop...

Y'all niggas ain't saying nothing
Mouse pros, no, she walking like she got something to
show
Here's the show, ask the... go
Here we go like damn do you see that, do you see that?
Shake that ass baby, damn do you see that, do you see
that?
Shake that ass mama damn do you see that, do you
see that?
Shake that ass Shawty, damn do you see that, do you
see that?
Bounce, bounce

Damn I know you see that, looking how she do that
When she drop it, drop it low, to the floor

She a pro, the way she make that booty roll
Don't stop just keep on going, she the baddest and she
know it
Keep them bottles coming, keep the money throwing
Cause we party till the morning, it ain't nothing
And I'm just stunting, never fronting
Not like the rest of you, I'm departed, I'm the shit like
I'm done farted...
Cause I don't love these hoes, see them once then I tell
them that it's time to go
Vamo nos, man the way I do it, they be so amazed
Haters... go and get lost, like a fucking maze
My throw goes for days, hot like the sun rays
Don't care what you say so hater you can hate
Too real, I can't pretend, I'm a living legend
So if you standing next to me, that's a fucking blessing

I... like damn, did you see that, did you see that?
That girl that's something,... stop...
Y'all niggas ain't saying nothing
Mouse pros, no, she walking like she got something to
show
Here's the show, ask the... go
Here we go like damn do you see that, do you see that?
Shake that ass baby, damn do you see that, do you see
that?
Shake that ass mama damn do you see that, do you
see that?
Shake that ass Shawty, damn do you see that, do you
see that?
Bounce, bounce

Stop, drop and roll, that ass is on fire
Freeze is the shit and down that... retire
This music shit can play my bills

... so just bounce that...
Don't... like... I'm... you see where my mind at
... it's closer to the floor
What you doing girl?
I hope you mind doping, explore baby,... navigate my
world and I'll do yours baby
And if you get lost, I'll brign you back to shore baby
Put you back to ocean...

Shake that ass mama damn do you see that, do you
see that?
Shake that ass Shawty, damn do you see that, do you
