We cworell and we fight but we a go mek it up 2night  
I luv u babe

Ayyyyyyeay

Me and ma luva jus always a fight but him wah fi do fi  
mek me smile get bright we war and him lef and nah  
cum back till late in di hours wid di bunch of di nicest  
flowers

Even though me vex still mi blood a boil

One look below di waist and mi humble like a child

Can't help it mi couldnt hide di feelin

Plus him a thrill me wid di more sweet talkin

You know mi nah go nock you down babe

No me just wahn hold you down babe

Him seh gwan go put on your thong babe

And before you know it it's another baby

You know mi nah go nock you down babe

No me just wahn hold you down babe

Him seh gwan go put on your thong babe

And before you know it it's another babyy

The sadest thing about a cworell is when everting nah  
work out right

But if you got anything like me and fi me babes

When even when jus done malace him fi days

And I swear seh me a gone lef him if he no change him  
tricky ways

Wi love fi one another mek everyone amaze

The children believe inna everything is his

We only going tru a faze

So come tell me sorry soft in ah me ears

You know mi nah go nock you down babe

No me just wahn hold you down babe

Him seh gwan go put on your thong babe

And before you know it it's another baby

You know mi nah go nock you down babe

No me just wahn hold you down babe

Him seh gwan go put on your thong babe

And before you know it it's another baby

A real man so me nah fi run him head  
No ---- man can come inna mi bed  
So even if you always see we ah argue  
About most of di things where nuff man nah wah do  
Like fi help out with the kids and pay the bills on time.  
Nah nasty up mi house when me just done shine  
Mi can't search your phone but u wahn search mine  
A war when di whole ah dat comb-b-b-i-i-ini-eee

You know mi nah go nock you down babe  
No me just wahn hold you down babe  
Him seh gwan go put on your thong babe  
And before you know it it's another baby

You know mi nah go nock you down babe  
No me just wahn hold you down babe  
Him seh gwan go put on your thong babe  
And before you know it it's another baby

Me and ma luva jus always a fight but him wah fi do fi  
mek me smile get bright we war and him lef and nah
