You fell into my life
When I least expected
Turned me upside down
You turned me inside out

And I can't breathe
Or move an inch from where we are
You stole me with your charm
You had me from the start

Start at the beginning
And we'll write our own ending
Leaving out the part
Where things get so messed up

[Chorus:]
Get up and go
We'll leave this town
Nothing can hold us down
So listen to me now when I say
Baby you're my runaway
I'll go where you take me

I just want your time
And a little attention
Your touch drives me wild
Yeah you make me smile

And I can't sleep
Without a kiss to say goodnight
Your arms around me tight
I'll dream of you tonight

[Chorus:]
Get up and go
We'll leave this town
Nothing can hold us down
So listen to me now when I say
Baby you're my runaway
I'll go where you take me

Bridge:

I loved you with everything in me
You filled the spaces I couldn't see
Now I can see
For the longest time you had me
But you were always out of reach
Now I can reach

Baby I'm a runaway
Baby you're a runaway
Baby I'm a runaway
Baby you're a runaway
So let's run away

[Chorus:]

Get up and go
We'll leave this town
Nothing can hold us down
So listen to me now when I say
Baby you're my runaway
I'll go where you take me
