[Verse 1:]

If I breathe
Would you hold it against me?
Would you hold me down?
And If I leave
Would you find an apology?
A way to keep me around

I'm getting sick of this
We are such a mess
I hold it down
When it all feels hopeless
I really need this burden lifted
Let's call it quits
Before it gets twisted

[Pre-chorus:]

Let's not call this love

[Chorus:]

If you could only see
What you're doing to me
Feels like I'm burning, burning
If we could make believe
This was meant to be
It wouldn't feel like
I'm sleeping with the enemy

[Verse 2:]

I'm fighting whispers in the dark
The urge to break your heart(whoa oh oh oh)
This isn't what you promised
Or swore it would be
I couldn't keep you honest
Or find your decency
Tell me you were lying all along
Now you're just another song

[Pre-chorus:]

Let's not call this love

[Chorus:]

If you could only see
What you're doing to me
Feels like I'm burning, burning
If we could make believe
This was meant to be
It wouldn't feel like
I'm sleeping with the enemy

[Bridge:]

Don't hold your breath
You're running out of air
Put this to rest
I don't care, I don't care

[Chorus:]

If you could only see
What you're doing to me
Feels like I'm burning, burning
If we could make believe
This was meant to be
It wouldn't feel like
I'm sleeping with the enemy
