You think you got the best of me
You got another thing coming
'Cause tonight I'm breaking free
And I'll hit the ground running

This time I'm right on track
And there's no need for looking back, no
This time I'm right on track
And there's no need for looking back, no

[Chorus:]
I'm going off the deep end
There's no need to catch me
Baby watch me fall
I'm going off the deep end
I'll land on my feet
And I will have it all

Well this is where I want to be
And these words are all I need
And with this passion, it's never a question
I'll get there eventually

So keep your ego in check
And stop talking all your sh*t
'Cause karma will catch up
And you won't like, like what you get

This time I'm right on track
And there's no need for looking back, no

[Chorus:]
I'm going off the deep end
There's no need to catch me
Baby watch me fall
I'm going off the deep end
I'll land on my feet
And I will have it all

I am moving on
I will prove you wrong

I will prove you wrong
I am, I am
Going off
I'm going off
I'm going off
I'm going off

[Chorus:]
I'm going off the deep end
There's no need to catch me
Baby watch me fall
I'm going off the deep end
I'll land on my feet
And I will have it all
