sung by William  
written by William

Come, come and dry your eyes  
Before the morning sun arrives  
Kiss, everybody is a star  
No matter who or what they are  
I could tell the truth but what's the use  
It's been abused by us

Junk the junk love the love  
It's a secret from above  
Ain't it good it's the drug that keeps us true  
I got to get some through to you  
I got mine and I got you  
Just for the two of us

Come, come and dry your eyes  
And watch the morning sun arrive  
Kiss, everybody is a star  
No matter who or what they are  
I could tell the truth but what's the use  
It's been abused by us

Until it shines  
Till it shines  
I won't die
