When you say it's dead & gone
I know you're wrong

Cut & slash, sharpest knife
It won't die

Poison cup, drank it up
It won't die

No fire, no gun, no rope, no stone
It won't die

Why you gotta shove it in my face
As if you put me in my place
Cause I DON'T CARE
If you or me is wrong or right
Ain't gonna spend another night,
In your bed...

Laws of man, are just pretend
They ain't mine

Love so good, love so bad
It won't die

Some talk too long, they know it all
I just smile & move on

Words ain't free, like you & me
I d'ont mind...

Why'd you have to be so mean & cruel,
The dogs are loose i'm on to you
You ball & ...
Chained together from the dawn to dusk,
Can't call it leavin, cause it's just

I never came....
