"God Is On The Radio"

Visit "[God Is On The Radio](#)" on MotoLyrics.com

I thought I saw him on the video
The trance is keeping him under
I know that God is in the radio
Checkin' the station

The narcotic from me to you
Just a caught in the medium
I know you hear it, I hear it too
It's everywhere that I go

You come back another day
And do no wrong
You come back another day
And do no wrong

You come back another day
And do no wrong
You come back another day
And do no wrong

They say the devil is paranoid
Always runnin' for cover
But God is leakin' through the stereo
Between the station to station

You believe it, I know you do
You won't admit it or say so
I know that God is in the radio
Just repeating a slogan

You come back another day
And do no wrong
You come back another day
And do no wrong

You come back another day
And do no wrong
You come back another day
And do no wrong
