If I make you cry at times
If I tell a lie at times
It's my first romance
Give a fool a chance
If your poor heart aches, my love
When I make mistakes, my love
Try to understand
Give a fool a hand

Now I don't need to hurt you or break the heart that you
gave
It's just that love is new to me and I don't know how to
behave
But you can right what's wrong with me
If you'll string along with me.
Don't end our romance
Give a fool a chance

It's just that love is new to me and I don't know how to
behave
But you can right what's wrong with me
If you'll string along with me
Oh, don't end our romance
Please give a fool a chance
