Iced over close you're eyes whisper the flame takes us
higher seems our world is closing round when I'm
inside you you bring me to sacred ground. When I'm
inside you. I know I can change you're mind given to
me the same way. I gave it all up for love I know that
you feel the same way. Gave it all up for you I swear
that I would noew I've fallen inside.

Now we'll love till theres nothing left to give swimming
in an ocean of sweat that scent of you it drives me to
give a little an hour. You bring me to sacred ground
when I'm inside you.
