Another hungry look in her eyes again
Pacing the floor the hunt begins
Skin tight leather provides my pleasure
Wake my fear, surge with the pressure
Walk away and leave forever, do I dare?

Raise my eyes, she stands
Holding out healing hands
Are you happy now?

I walk the thin line for you
Do just what you say to
With fear as my friend
I walk the thin line one more time for you

Addictive face pretending, don't speak the word
Forbidden sin relenting, I barely heard
Screams of entry blur my vision
Wake my fear of divine intervention
Crawl away and bleed forever, if you dare

Hand on mouth the game goes on
Love, our stage to play upon
Are you happy now?

I walk the thin line for you
Do just what you say to
With fear as my friend
I walk the thin line one more time for you

I walk the thin line for you
Do just what you say to
I walk the thin line for you
Do just what you say to
With fear as my friend
I walk the thin line one more time for you
