You know I can't fool someone like you
You got to... baby, baby, listen cuz I'm dead if I don't
You know this is the least that I can try...

I can't look back when your eyes starts staring at me
Now please stop that thing, you know I can't think
(baby, baby, on me). Cuz
When you're out there, you know I can't, I can't
complain it. It's you my
Dear, I can't resist. (no, oh... oh whoah!)

You know I can't fool someone like you
You got to... baby, baby, listen cuz I'm dead if I don't
You know this is the least that I can try...

At the prom night baby, there was you and me. It was
the very first time
That you got me. With your red dress I can't resist
staring at you... Cuz
When you're out there, you know I can't, I can't
complain it. It's you my
Dear, I can't resist. (no, oh... oh whoah!)

You know I can't fool someone like you
You got to... baby, baby, listen cuz I'm dead if I don't
You know this is the least that I can try...

You know I can't fool someone like you...
(I can't fool you baby when I'm looking in your eyes)
You got my heart melted and I feel like I'm iced...
(I can't fool you baby when I'm looking in your eyes)
You got my heart melted and I feel it...

You know I can't fool someone like you
You got to... baby, baby, listen cuz I'm dead if I don't
You know this is the least that I can try...
