Shut up!
You gonna make it work
You know you're losing everything
Shut up!
So we can start again
So now we know how we should end

For a little while
I don't know whether
We are living or dreaming
For a little while
I don't know whether
We are flying or falling

I've got nothing
So I've got nothing to lose
No I don't,
I'm not trying to forget this moment
I'm glad I'm all sober when it's over
I've got nothing
So I've got nothing to lose
No I don't,
I'm not trying to forget this moment
I'm glad I'm all sober now!

Shut up!
Anything you say can be used against you in the court
of law
Shut up!
Anything you say can be used against you!
