"Broken Man"

I've been cruising every highway but I don't know
where I
I've been
All my life I've been rightful, if killing ain't no sin
I've been trying to remember what I did along the way
Who I am, where I came from, well I guess it's all the
Same

I know, tomorrow I will beg for today
I know, I've never been afraid
Yeah I know, I have ruined my plan

Now I'm standing here as a broken man

I was given just a little but I ended with a lot
In the poison I was drowning I deserved just what I got

I know, tomorrow I will beg for today
I know, I've never been afraid
Yeah I know, I have ruined my plan
Now I'm standing here as a broken man
