"From Your Boy King"

Visit "[From Your Boy King](#)" on MotoLyrics.com

I'm hanging 'round hoping hard

That you wanna be with me always and always

It's my way of saying won't you stick around me

For the rest of your life

I'm gonna wish on a star

That you're gonna stick me always and always

It's my way of saying won't you stick around me

For the rest of your life

This song is straight from your boy

Even though you've gone and left me all alone

This song is straight from your boy, and it's just for you

Even though you're gone I can't stop loving you

I always think of you
