I called in sick to work today and stayed in bed 'til noon  
And now I just don't care what's going on outside this  
room

Things aren't getting better my future's not too bright  
Fuck the world I'm hanging out with you tonight

Whoa....

Me and you will walk around so pointlessly  
Smashing things, jacked up on way too much caffeine  
I'm really going nowhere I hate this shitty life  
Fuck the world I'm hanging out with you tonight

Whoa....

Fuck the world I'm hanging out with you tonight (until  
fade)
