I didn't know my name, my girlfriend is a pain
My mom and dad they really freak me out
I'm really fucking fried, why am I alive?
Mom and dad they always scream and shout

I was a high school psychopath, part two
High school psychopath, fuck you
High school psychopath, like you
High school psychopath, go

School so fucking lame, there's rats inside my brain
My mom and dad they really freak me out
I'm really fucking fried, why am I alive?
Mom and dad they always scream and shout

I was a high school psychopath, part two
High school psychopath fuck you
High school psychopath, like you
High school psychopath, go

I'm all alone, it's just me, I want no part of LSD
Your ruffled hippy vest looks great
But it's no longer '68
Cut you hair you god damned fool
Please understand that I hate you

Jump off a bride and please us all
They'll really miss you at the mall
There's something crazy in my head
All I wanna do is cry, I can't figure out just why
All I wanna do is cry, but I'd rather see you die

High school psychopath, high school psychopath
High school psychopath, high school psychopath
High school psychopath, high school psychopath
