Yeah, release me from this halo  
It's a burden, bringing me down  
Yeah, release me from this halo  
I'm not worthy walking this ground

It matters to me, does it matter to you?  
How I feel... what do I feel I don't know  
When I see, yeah, what no one believes  
I am standing in a merciless room

All I'm given ? desolation  
I can't stand this horrible sound  
All I'm given ? desolation  
I feel safe when no one's around

It matters to me, does it matter to you?  
How I feel... what do I feel I don't know  
When I see, yeah, what no one believes  
I am standing in a merciless room
