Washed up and serving life.
Selling our youth line by line.
These nights are looming over my shoulder,
They wont quit,
They wont quit until I am theirs.
Its the end, I can feel it in my veins.
Sending me back to a daze.
Claiming this is all a mistake.
Heaven denied my cries for help.
On our own until the grave, the soldier of misfortune.
Casted to the shadow of death.
Destroy every last hope.
It no longer lingers with me.
If I could do anything with these times,
I would make myself better.
I appologize for this.
Im starting to sink fast to the bottom, and lose all
control again.
You can only go so far along with just getting by.
Its the end, I can feel it in my veins sending me back
through time, to fall into this empty place.
I will need some good intentions
This poison will end me, yet im just fine.
Its not just a bite, its a death sentence.
Found a home in yourself.
Sheltered from the world.
Washed up and serving life.
Selling our youth line by line.
These nights are looming over my shoulder,
They wont quit,
They wont quit until I am theirs.
Youve trusted your senses.
They have failed you.
You have failed us.
Feed yourself to this pain you know.
Youve done this all yourself,
Released by a skeleton key.
Dying off one by one.
Sealed by themselves.
We are left with this.
The path we lead is cursed.

The illusions we see are blurred.
Im starting to sink fast to the bottom,
And lose all control again.
You can only go so far along with just getting by.
Its the end, I can feel it in my veins
Sending me back through time to fall into this empty
place.
I will need some good intentions.
