

## A Lifetime Away

### "Storybook"

Visit "[Storybook](#)" on MotoLyrics.com

If there were words I could say  
That wouldn't break your heart  
I would say them everyday  
And never take them back

(chorus)

I hope this ends like a story book  
The ending looks better with every look from you

The past few months I've been with you  
have been perfect  
The past few months, I hope will last forever  
Would Last Forever.  
As long as you're here.

(chorus)

I hope this ends like a story book  
The ending looks better with every look from you
