And we came from outside
And the birds were dirty
But we hurried to get in from the cold

Can we rest our eyes
If you tell us you've been looking for another able body
But not you, or anyone that looks like you
But if you can find anyone that looks like me

Take me outside and just were hurting
But we were even seeing through our souls
Can we take our time
If you tell us you've been looking for somebody you can trust
But not you, or anyone that looks like you
But if you can find anyone that looks like me

(Chorus)
You always allowed to push you around
And take you outside and make you believe you're nothing
Outside everyone looks the same without you
I would do anything to feel it again
Wait for the sound at your door stay outside

And we've been hiding in our houses to get stream
Stay outside, please stay outside
WE can see it in our blood shut eyes
We've been looking for someone , anyone
But not you, or anyone that looks like you
But if you can find anyone that looks like me
I would bet if you could find anyone that looks like me

(Chorus)
You always allowed to push you around
And take you outside and make you believe you're nothing
Outside everyone looks the same without you
I would do anything to feel it again
Wait for the sound at your door stay outside

I would do anything to feel it again
Wait for the sound at your door stay outside

Stay outside (x4)

I saw your death
But you won't leave
I'll never be like them
I saw your death
But you won't leave
I'll never be like them
I saw your death
But you won't leave
I'll never be like them
I saw your death
But you won't leave
I'll never be like them
Stay outside
