Look into the dark nights
I'm dancing in the shadows with you
There's a world waiting out there for us to see
Hey, you know

And beneath the starlit blanket
Dreams are made of solid gold
I just wanna be the one to hold you there
When you're cold, oh

With so many pictures on the walls
Of five billion minds
We just need to take them out sometime
You know and start living these good times

Girl, you know
Decent dreams and pictures
Make you airborne
When you close your eyes

That's why I wanna fly with you tonight
'Cause no one else, no one else can make the flight like
you
So I wanna fly with you tonight
And no one there, oh Lord, oh Lord

I'm obviously indebted to you
By the way that you make me feel
Those ice cold warm heart
Is always gonna be able to turn a dream to real

I say, I'm touching all horizons with you
I got my sights on solid gold
I feel superhuman, baby
You know like the way the marvel
Make man feel in their shows

Now check out what my mind say
Check out what my words say
Check out all my actions
I just want your satisfaction

You know 'cause I wanna fly with you tonight
Oh, no one else, no one else can make the flight like
you
So I wanna fly, oh, with you tonight
And make a dreams, make a dreams a real life

I can, oh no, you got to take my hand lady, oh yeah
You understand what I'm saying
And you know we gonna find the ideal destination
I say, I say
I, I wanna, I wanna fly, hey, with you tonight
