BOOM!

[Psycho Les]

I take a stick of dynamite and put it to my mouth  
Light it up, then I blast off like Alf  
I be off (off) into another world  
Got no time to be strapped to a freaking girl  
?Blood stones? I pop, let 'em fizz out on top  
On my lizard tounge like a donk with the zert  
I hung to the like break of dawn  
Six-packs for the 'Nuts leave the baker

[Fashion]

I want to get wrapped in the sheets so I can sleep or  
sleepwalk  
Mumble when I speak, but when I freak I speak talk  
Get married to Juana, dip for my oink  
Always on point to bumrush my joint  
See the party can't last with the glass on the vineyard  
So I put some yellow liquid and some dump on the  
menu  
One two, to the like one two, my vision's hazy  
Don't test me now, this paper's got me crazy

[Juju]

Ayo you be buggin' off the styles I be freaking  
Dusted, keep you in a daze when I'm speaking  
Stutter to be butter, but if you want I make it milky  
A twenty bag of chocolate and a blunt, is you with me?  
(Yeah!)

Blowing smoke like a dragon, my mouth is dry and my  
eyes is sagging  
So I flew, cause I felt I could do it  
Do a dog, 40 ounce and fluid

And fluid, and fluid  
Puff a cloud and drink the fluid  
Puff here, puff there  
World famous Beatnuts puff everywhere!

[Juju]  
Stimulation, feel the junkie sensation  
It keeps the funk in rotation  
Sluggards you're moving slow  
Take a hit and act like you know  
Now I'm open for business, call a hon with the  
quickness  
To get some physical fitness on  
Gettin' that all night long  
Intoxicated Demons in the house, I'm gone

[Fashion]  
It's like a blast to my brain when I trip  
Those lights and the sights at night make me flip  
And then I want to slip to the magic kingdom  
Some bitches in the stable, \*lyrics played backwards\*  
raid 'em  
Cause I can make a movie with a sis or a buddy  
And I'm a eat the cake no matter if it's chubby  
Run up the line, double time, I'm ready  
And I'm a get your gas chick like my name was Geddy

[Psycho Les]  
Girl, want to pull a cloud?  
Pass it around the crowd when the music's loud  
Can't talk, you don't want to see me walk  
Great minds as I fail in front of the park  
I don't know what's going on  
I feel upside down like a Pharcyde song  
See keeps on buzzing me  
When I'm through it, puffing and swimming in fluid

And fluid, and fluid  
Puff a cloud and drink the fluid  
Puff here, puff there  
World famous Beatnuts puff everywhere!
