

Alpha "Once Around Town"

Visit "[Once Around Town](#)" on MotoLyrics.com

It isn't easy having fun
When you're away so long
It's the same face every night
Under the bathroom light

Time to get dressed and fast
Checking for keys and cash
Close the door, head for the city
Letting the taxi cab, find the way
Find your way

And when the evening's underway
Everyone feels okay
Watch my timing with champagne
And blissfully feel no pain

I catch a silhouette
I feel a smile
Like you found the way
Found your way

And time's come into play
You found your way
And time's come into play
Hurry up, baby
Hurry up, come to me

It's like you found your way
Time's come into play
I thought you found your way
Hurry up, baby
Found your way
