Rebirth [2x]

If we believe in rebirth, we are reborn

If we believe in rebirth, what does it mean to all of us?

Rebirth extends our existence

Rebirth carries on our presence

If we believe in rebirth, death becomes the beginning
of another journey

Our flame of life is eternal

Our consciousness remains forever

Our experience, our wisdom, and our history pass on

From one life to the next

If we believe in rebirth, we are reborn

Rebirth
