(Stephan Berg - Richard Hampton) Rival Music

I will never stand alone

Or be the one to chase distant memories

You can open hearts of stone

With every touch of grace

You were there to set me free

Could it be I'm on the road to paradise

One step closer to the heaven in your eyes

I'm captured by a lovestorm

From your heart

Giving me a brand new start

And it's gonna last forever

Captured by a lovestorm

Day and night

Feeling only what is right

You're the reason love is here to stay

Make the best of what we share

The moments passing by

Will not come again

I can feel it in the air

Like raindrops from the sky

Softly blowing in the wind
Without no regrets
I'll leave the past behind
So much love to follow
Till the end of time
I'm captured by a lovestorm...
We'll stand together
United by the power of love
I'm yours forever
Free to sing like angels from above
I'm captured by a lovestorm
Captured by a lovestorm
Giving me a brand new start
And it's gonna last forever
Captured by a lovestorm
Day and night
Feeling only what is right
You're the reason love is here to stay
I'm captured by a lovestorm
Captured by a lovestorm
