Staying up just to get down
Moving out to the speed of sound
Waking up for the letdown
Our love's electric, this love's electric

It's been awhile now and I think you feel it too
Don't need to hideout I can't wait to to see you too
Ain't gonna lie now in my dreams I think of you
Don't need to hold back, baby don't hold back now

Cause this is all we got
Before the party stops
We're giving us a shot
We'll take it to the top
Around the block
If you like we can drop the top
And get down, get loud

Girl we've been staying up
Staying up just to get down
Moving out to the speed of sound
Waking up, waking up for the letdown
Our love's electric, this love's electric

I've got to find out, if I'm only playing the fool
You tell me come now while I try to play it cool
But I go too far you're thinking I'm not into you
Can't help myself I do it over and over again

I'm holding on, you've made a mess of me
Can't get it on, you've got the best of me
I'm burning up, her electricity
Our love's electric, this love's electric

This love has got me tripping
Head over heels I'm in it
My head is spinning
And I can't explain it
We go around in circles
Can't seem to break this cycle
Just take my hand and we'll go
