Gettin' out the limo making my way to the dance floor
DJ's got it started but I think he needs to give it more
VIP section is calling my name and oh I think I found
you girl
I think I found ya

Yeah yeah, this beat is like my lifeline
Yeah yeah, got my heart doing doubletime
Yeah yeah, the lights are shining on you
Now all the world's a stage so what you gonna do

Take it from the top now, top down
We're cruisin' round town
Short, tall, big or small we don't care at all
And you can start now, get down
Imma throw it down now
I don't care who you are, you gonn' party like a rockstar
Oh oh, party like a rockstar
Oh oh, party like a rockstar
Oh oh, tonight you are my rockstar
Oh oh, party like a rockstar

Now we be ridin' heavy when the bass is going boom
And you say that you don't like it but I know you know
you do
So come on QQD we rockin' up the scene
Ah oh I think I found you girl
I think I found ya

So won't you tell me what I gotta do
I know that you are feelin' it too
I can see it by the look in your eyes
That we gonn' party like we're rockstars
(Rockstars, rockstars, rockstars, party like we're
rockstars)
