1 2 3 4

Get me outta here cuz my eyes are burnin' from these
silly tears
That you broke when you showed me you don't really
care
And you never loved me
Someone get me outta this place

Right now it's so amazing
How you have so many faces
And you are not that person I thought
That I had fell so deep in love with

You changed up your make up your DNA
I can't recognize, you're a stranger to me
I feel so betrayed what a waste of my heart

Get me outta here cuz my eyes are burnin' from these
silly tears
That you broke when you showed me you don't really
care
And you never loved me
Someone get me outta this place

Right now my body's tremblin'
It's so damn hard to kick this feelin'
Your heart is so cold and now i'm freezin'
Wish you could feel the pain
Baby I would arrange it yeah yeah yeah yeah

You changed up your make up your DNA
I can't recognize, you're a stranger to me
I feel so betrayed what a waste of my heart

Get me outta here cuz my eyes are burnin' from these
silly tears
That you broke when you showed me you don't really
care
And you never loved me
Someone get me outta this place

I thought that we were forever
I guess i'm misunderstood
My fault for thinkin' you loved me
Or even thinkin' you ever could
Get me out of here right now
Get me out of here right now

Get me outta here cuz my eyes are burnin' from these
silly tears
That you broke when you showed me you don't really
care
And you never loved me
Someone get me outta this place X2

Right now, right now, right now
1 2 3 4
Someone get me outta this place

Get me outta here cuz my eyes are burnin' from these
silly tears
That you broke when you showed me you don't really
care
And you never loved me
Someone get me outta this place
Right now
