I'll stay a while, but I won't stay long.
I'll stay a while, but I won't stay long.
No I won't, it's been too long since I've been next to my
lover,
I sure had fun, but now I'm thinking ahead
'Cause of her call and the letter I read,
It's been too long since I've been next to my lover, hey
hey hey hey,
Even a drivin' wheel must come to rest some time.
Even a drivin' wheel must come to rest some time.
It's been too long since I've been next to my lover, o
woh woh woh yeah,
It's been too long since I've been next to my lover, o
woh woh woh yeah,
It's been too long
