

A Moments Peace

"Recovery"

Visit "[Recovery](#)" on MotoLyrics.com

I'm powerless-completely powerless-I went out now I'm
back to try again-I went out now I'm back to try again-
set free and now I know I never have to go back to
where I was- Your
strength will carry me and help me do the things I cant
do myself-help me to put my best foot forward so I can
once again be useful in society-help me to give up my
will for Yours so that I
can hold on to my sobriety-cause only You can do for
me what I know I cant do myself-never I never want to
go back there and through You strength I will not never
I never want to be brought
down to the level that I was-never gonna go back again.
