All my life left alone  
Blank spaces  
A survived tragedy  
An empty poem  
In the end comes oblivion  
Will I die alone?

Moments elapsed  
Time wasted  
Alive for dead  
All these thoughts a storm in my head

(Chorus)  
Dead inside  
Eternity Frozen

In my eyes lost with life  
I cannot see this pain in me

My mind decays  
All memories surpassed  
Is this moment my last?

Suicide, escape from life  
What is this?  
I'm not ready to die  
I'll rebuild the ruins of what was once my life
