You're the hunter, I'm the game  
Since we met, I'm not the same  
The hunger in you can't be satisfied  
You had a secret strategy  
To take control and capture me  
I lost my will and now I'm paralyzed  
We made a slave to love  
That's what I'll always be  
A victim of your touch  
You stole my soul and now I'm just a slave to love, yeah  
It took one night at your hotel  
To fall from grace into your spell  
I can't believe you brought me to my knees  
You kiss me once and love me twice  
I'm on your mental sacrifice  
Your target's touch was hot and aim to please  
We made a slave to love  
That's what I'll always be  
A victim of your touch  
You stole my soul and now I'm just a slave to love  
Oh, I'm being used  
Been held hostage for so long  
Is this a one way love affair  
Really wrong  
We made a slave to love  
That's what I'll always be  
A victim of your touch  
You stole my soul and now I'm just a slave to love  
Just a slave to love  
Just a slave to love  
A victim of your touch
