I'll stay a while, but I won't stay long.
No I won't, it's been too long since I've been next to my
lover,
I'll stay a while, but I won't stay long.
It's been too long since I've been next to my lover, hey
hey hey hey,
'Cause I recall in the letter I read,
I sure had fun, but now I'm thinking you're here,
Evening driving wheel will come to rest some time.
It's been too long since I've been next to my lover, oh
woah woah woah
Evening driving wheel will come to rest some time.
yeah,
It's been too long since I've been next to my lover, oh
woah woah woah
yeah,
It's been too long.
