Fuck Off & Die!
"Don't Look At Your Back"

Years passed rejecting compromises
Marching alone between this sea of shit
You will always hate that fuckers
FUCK SOCIETY, FUCK HUMANITY

They can suffer, they can live
They can cry, love and smile
You are out of their lightfilled world
To them - fuck off and fucking die!

Close your eyes, go ahead
Don't stop, don't look at your back
They will never care about you
Leave them with their shitty smiles

Don't listen their bullshit about you
They will never understand
Keep a bottle of good wine
Drink and spit on them
