Sunrise, sunset
Thinking about the things you said
Trying to get you out of my head
I can't help but feeling so upset

Maybe we break too
Maybe we won't
Maybe we question
The things we will never know
Or maybe we'll fall in love
Or we'll fall apart
Maybe we'll crush and burn
Right before we start
You're an avalanche
Colliding with my heart
Baby, don't stop
Baby, don't start
Maybe our chemistry
Is a work of art
Maybe we'll burn it up
Like a falling star
In another place
And another time
Maybe I'll be yours
Maybe you'll be mine
Maybe I'll be yours
Maybe you'll be mine

I know, I know
We'll live like we're gonna live
Forever fight like we're gonna be together forever
But we never know
Oh, so don't hold your breath

Maybe we break too
Maybe we won't
Maybe we question
The things we will never know
Or maybe we'll fall in love
Or we'll fall apart
Maybe we'll crush and burn

Right before we start
You're an avalanche
Colliding with my heart
Baby, don't stop
Baby, don't start
Maybe our chemistry
Is a work of art
Maybe we'll burn it up
Like a falling star
In another place
And another time
Maybe I'll be yours
Maybe you'll be mine
Maybe I'll be yours
Maybe you'll be mine

Sunrise, sunset
Thinking about the things you said
Trying to get you out of my head
But we're not over yet

Or maybe we'll fall in love
Or we'll fall apart
Maybe we'll crush and burn
Right before we start
You're an avalanche
Deriving with my heart
Baby, don't stop
Baby, don't start
You're an avalanche (baby, you)
You're an avalanche (baby, you)
You're an avalanche
Bury me alive
Maybe I'll be yours
Maybe you'll be mine
Maybe I'll be yours
Maybe you'll be mine
Maybe I'll be yours
Maybe you'll be mine
You're an avalanche
Bury me alive
