

Quietdrive "Every Day"

Visit "[Every Day](#)" on MotoLyrics.com

I feel lost
I feel alone out here
Even though I'm surrounded by people I love and know

I wish I could go
Go back a couple years
I'd go back to the days when I felt so invincible

Every day
I think of the mistakes I've made
I could of have it all
I could of have it all
But I guess I'll never know
But I guess I'll never know

These memories hold
The stories, they bend and fold
I hope time won't forget all the people I've come to
know

(All my life) I've been hoping for
(All my life) Just to feel something more
If I could do this over
I'll make it last forever
And keep it all together

But every day
I think of the mistakes I've made
I could of had it all
I could of had it all
But I guess I'll never know
But I guess I'll never know

Every day
I think about the dreams I've chased
I could of had it all
I could of had it all
But I guess I'll never know
But I guess I'll never know

Every day

I think of the mistakes I've made
I could of had it all
I could of had it all

Every day
I think of the mistakes I've made
I could of had it all
I could of had it all
But I guess I'll never know
But I guess I'll never know

Every night
Every day
All the mistakes I had to make

Every night
Every day
All the mistakes I had to make

Every night
(Every day)

Every night
(Every day)
