I never said no  
I never said yes  
But now there's something  
I need to get off my chest  
It's a lot for me.  
It's a lot for you.  
I never could sound  
The way that I feel  
But now it doesn't matter  
'Cuz this truth isn't real  
Are you fake to me  
Am I fake to me

[Chorus:]  
I wanted  
To be there  
Never taking time to  
Understand your reasons for this  
Take the time to talk it over  
This is what you're listening for  
Patiently  
You wait for me  
Never wanted any sympathy  
For what you did to me  
I hopefully will  
Be set free

You never said no  
You never said yes  
But now there's something you  
Need to confess to me willingly  
Are we history?  
I never rewind  
I never press play  
But I know that  
I've seen it all too many  
Times for me  
It's our history

[Chorus]

Everyone is holding me back

From my place, am I displaced?  
Because I couldn't see that  
Everyone is wasting my time  
And I will not wait for you  
Because that day will come when

Everyone and everything is  
Pulling me out of my brain  
Everyone and everything is  
Pulling me out of my brain  
Maybe I should try and stay with you.  
Everyone and everything is (No matter what you say)  
Pulling me out of my brain (No matter what you say)  
Maybe I should try and stay with you (No matter what  
you say)
